

Benefits of Steam Cleaning

With the OSIM iEcologi, water is transformed to super dry steam at 120°C of up to 3.75 bar. It is especially effective in getting rid of dirt, grease, grime and stains from both hard and soft surfaces. Additionally, the super dry steam dries very quickly leaving no water residue.

- ✓ High temperature breaks down grime on any surface!
- ✓ Heat kills dust mites which reside in mattresses, rugs and upholstered furniture!
- ✓ Helps kill bacteria in areas other cleaning methods cannot reach!
- ✓ No chemical residues are left behind to attract dirt and dust!
- ✓ Pet stains and odours are easily removed!
- ✓ Blinds and curtains can be left in place while being cleaned!
- ✓ No toxic fumes that may otherwise cause skin and respiratory allergies!
- ✓ Loosened dirt, dust and grime pass through a HEPA filter before being trapped in water!
- ✓ Cleaner, safer, fresher and healthier living environment for the whole family!

The iEcologi's Eco-Active Filtration System captures dust in water without polluting indoor air!
